EXECUTIVE SUMMARY - PHASE II

The Opportunity

The Briarwood Reserve Phase II (the “Project”) is a multi-phase, three-story, garden-style development. Phase II is targeted to have 94 units up from the initial estimate of 84 units (in Phase I). This is due to the Sponsor value engineering the floor layouts plans to target maximum rentable square footage.

Phase I has 2 buildings already delivered with the remaining 3 buildings projected to be delivered over the next 2 quarters. In total, Phase I will comprise 60 units to bring the total development to 154 units.

The development is strategically located near 69th and Sycamore Ave in the South East submarket of Sioux Falls, SD. The premier location is in close proximity to a planned and funded major intersection that will provide access to the entire eastern and southern portion of the largest metropolitan area in South Dakota.

Each building will consist of 12-14 units across both phases. The quality but no-frills design reduces construction costs. The phased approach allows significant operating efficiencies pre- and post-construction.

By developing one building at a time, we will be in a position to lease up units as they become available. This strategy has been successfully executed on other projects - Reserve Flats and the Velthuis.

The major benefits of this strategy:

- Cash flow during construction
- Stronger expected financing terms for Phase II due to increased lender confidence as a result of in-place cash flows from Phase I
- Potentially quicker refinance vs. conventional development project of a similar magnitude (not assumed in the underwriting)

The last point is especially important. With rates expected to be lower in 18-24 months, we are targeting delivering into an accommodative monetary regime that can allow a refinance at favorable terms vs. the construction debt. This can allow investors access to tax-efficient refinance proceeds while continuing to enjoy the benefits of rental income from both phases. A refinance is not included in calculating the base case returns.

Boardwalk Wealth has effectively circumnavigated the challenges heightened during these volatile times by sourcing the attractive piece of land. To further reduce risk, Boardwalk Wealth and Mailbox Money have teamed with Veldhouse Companies to take on the entire entitlement risk by completing zoning, obtaining building permits, and architectural drawings, resulting in a shovel ready project for investors.

MEET THE TEAM

Omar Khan, CFA

Founder, Boardwalk Wealth

Omar has advised on **\$3.7 billion** in capital financing and M&A transactions, as well as securing **\$65 million+** in equity from private and institutional capital. He is a graduate from the Rotman School of Business (University of Toronto), and a CFA charter holder with **10+ years** of investing experience across real estate and commodities. As the principal of Boardwalk Wealth, Omar is primarily responsible for developing strong relationships with private and institutional investors, brokers, and strategic partners. He has transacted on over **\$570 million** of assets across TX, GA, FL and SD.

MEET THE TEAM

Dusten Hendrickson

Founder, Mailbox Money RE

Dusten is a real estate developer, syndicator, and investor. He has been involved in real estate his whole career: from owning a roofing company, to building homes, duplexes, and apartments. He owns and asset manages 300+ units. In addition, he has worked with historical societies and local councils to develop in revitalized neighborhoods, and has collaborated with the South Dakota State University Dept of Architecture to build the first certified Passive House in the state. As the principal of Mailbox Money, Dusten helps others earn passive income from multifamily investments.

MEET THE TEAM

Caleb Veldhouse

President, Veldhouse Construction

While growing up in Sioux Falls, South Dakota, Caleb worked in almost every facet of the construction industry. After obtaining his MBA and Juris Doctor degrees from the University of South Dakota, he spent time as a law clerk for the South Dakota Supreme Court and held a brief stint in private practice before he went to work full time for the family business. He became President of Veldhouse Construction, Inc. in 2015, and has managed commercial retail center projects, multi-family senior living facilities, bare ground commercial and residential developments, custom commercial buildings, multi-family double podium + frame construction, and everything in between. Caleb's experience and educational background allow him to swiftly maneuver complex issues with land owners, local governments, tenants, and subcontractors.

Caleb specializes in the planning, bare ground development, and management of large commercial projects. As the Principal of Veldhouse Companies, Caleb facilitates and spearheads a development project from site selection to stabilization. Over the last decade, Veldhouse Companies has successfully developed and constructed 50+ acres and \$150+ million of multi-family, commercial, and single-family development projects.

MEET THE TEAM

Dr. Tyson Cobb

Founder, Timberview Capital

Dr. Tyson Cobb is a semi-retired orthopedic surgeon with over 40 years of investing experience across multiple asset classes. He grew tired of the inconsistent returns and volatility of the stock market and moved into real estate investments which provided him much better returns and more stability. Tyson's real estate investing experience totals over \$900M in commercial assets as both a Limited Partner and General Partner. He invests in Multifamily (Apartments), Triple Net Commercial, Car Washes, Farmland, Texas Vineyards and Self-Storage Units. He continues to acquire his own real estate investments, joint-venture with partners in his network, and pool funds with other aspiring commercial real estate investors to acquire large assets in syndications. While he continues to operate as an orthopedic surgeon one day per week, he spends most of his time researching and underwriting real estate deals.

Tyson invites qualified investors to invest alongside him when he finds a home-run investment which represents less than 1% of the deals he researches. To mitigate risk and ensure he and his investors have a consistent flow of investing opportunities, Tyson seeks out highly-vetted operational teams across multiple markets and various asset classes in the U.S.

In addition to helping colleagues find financial freedom, Dr. Cobb has also found purpose in his life by supporting charitable organizations that support those who are less fortunate.

ASSET MANAGEMENT

Rigorous execution of each asset-specific business plan is the focus of Boardwalk Wealth at a corporate level. Primarily, this involves daily monitoring of occupancy and traffic trends, constant deep data analysis identifying patterns and guiding course-correction, full oversight of capex projects, robust reporting to our investors, and cost-segregation analysis.

Through this granular asset management strategy, Boardwalk Wealth provides a thoughtful and transparent investor experience that stimulates value creation and rapid de-risking of investments at the asset level and within the capital structure.

Asset management is targeted and hands-on. Regular initiatives include a comprehensive renovation package tailored to our resident demographic, reserved parking and carports, fenced-in patio yards, the addition of washer-dryer units, new cash flow-producing telecom contracts, and more.

We leverage our extensive network of vendors to achieve scale pricing on goods and services that create value at the asset level. Measures include property tax protesting, portfolio-shared contracts of landscaping and security, green initiatives, and the addition of valet trash to enhance the resident experience.

LEAD DESIGNER AND DEVELOPER

Mailbox Money vertically integrates development, construction, property management, and asset management to add value efficiently and effectively. Acutely aware of the monetary impact each decision makes, we unlock potential with simple and surprising solutions.

Our mission is to make great returns for ourselves, our clients, and our investors by purchasing and improving assets that people want to live in. We add value through low-cost, high-impact design improvements based on the asset at hand.

- ✓ Lead visionaries on the project; will liaison with/on civil engineering, land development, general contractors, and architect
- ✓ Develop the amenity plan in conjunction with the property manager to execute the business plan pre and post-construction
- ✓ Design, branding, material selection, and staging

GENERAL CONTRACTOR AND DEVELOPER

Veldhouse Companies is a family-owned real estate firm with over 30 years of real estate development and general contracting experience in the greater Sioux Falls area. We spearhead a development project from site selection to stabilization:

- ✓ We work alongside the landowner and local government authority to ensure the project's viability for the real estate at issue.
- ✓ We coordinate construction planning and design with the architect and engineering team during the pre-construction phase.
- ✓ We manage, coordinate, and facilitate the construction with subcontractors and vendors during construction.
- ✓ And finally, we seamlessly hand off the project to the final operator for the project, or operate the property ourselves.

Over the last 5 years, Veldhouse Companies has successfully developed and constructed 40 acres and \$70 million of multi-family, commercial, and single-family development projects

TAX ADVANTAGES

Depreciation: Depreciation is a reduction in the value of an asset with the passage of time, due to wear and tear. The IRS classifies depreciation as a paper loss which means you do not have to spend money, but still get the expense which can be used to offset taxable income.

Section 199(a): Starting in 2018, taxpayers are allowed a deduction tentatively equal to 20% of their qualified business income. Rental income from real estate investments is considered qualified business income for the deduction.

Appreciation: The IRS does not tax appreciation of a property until you sell. If you hold the property for many years or you refinance the property you get to enjoy the appreciation with minimal tax exposure.

Cash-Out Refinances: This strategy allows you to receive “cash-out” cash from the equity in the investment without tax consequences since the investor is taking out a new loan.

1031 Exchanges: This strategy allows you to sell one property and purchase another property with the funds from the sale without having to pay any taxes.

Cost Segregation Studies: Allows investors to separate personal property assets from real property assets for tax reporting purposes. This allows the personal property assets to be depreciated much quicker than the real property assets creating larger depreciation expenses to offset taxable income.

Capital Gains: Long-Term capital gains rates are taxed less than ordinary income and short-term capital gains rates which allows you to save and invest more of your profit.

Self-Directed IRA of 401(k) Investments: Self-Directed IRAs have all the benefits of a traditional IRA or 401(k) plan, but with self-directed IRAs you can invest in real estate or other assets instead of stocks and bonds.

Death: If you have real estate when you die your heirs receive a step-up in basis which means the property is revalued at your death and they do not owe any taxes on the appreciated value of a property.
